

Forgivable Loan Program

Administered by
The Department of Economic and Sustainable Development,
City of Bloomington

DESCRIPTION

The BEAD Forgivable Loan program is designed to create an incentive to new development in selected areas of the Bloomington Entertainment and Arts District (BEAD). BEAD is a geographically identified and state designated cultural district in the heart of Bloomington's downtown. The BEAD Forgivable Loan program will offer direct loans from BEAD through the City of Bloomington's Department of Economic and Sustainable Development which can be forgiven with no principal or interest due if the project remains in operation for at least five years. The BEAD loans will require leverage of at least 2 to 1, meaning for every dollar of BEAD forgivable loan there must be two dollars of financing/equity investment. The amount of the forgivable loan will not exceed \$10,000, depending on the targeted area.

Projects eligible for the BEAD Forgivable Loan program will fall into two categories based on geographic location and project type: either **Arts Row** or **Sector-Focused**. **Arts Row** incentivizes creation of certain sector businesses in the Arts Row character district of BEAD: retail, restaurant, arts space or gallery - \$10,000 maximum loan. **Sector-focused** incentivizes the creation of certain sector businesses anywhere in BEAD: retail, arts space, or gallery - \$5,000 maximum loan.

The BEAD loan will be forgiven at a rate of 20% per year for each year that the project remains in operation. The loan is amortized monthly over a 5-year period at a zero percent (0%) interest rate. In the event of default or cessation of the project, the remaining balance shall not be deemed as "forgivable." Monthly principal will be put into an escrow account each month based on amortization schedule. After each project's fiscal year, the applicant will submit a current balance sheet, current income statement, and its most recent federal tax returns to the City of Bloomington to receive the 20% forgivable return for the previous year of operation.

TIMELINE

Program applications will be accepted on a first come, first served basis beginning July 1 through November 15, 2013 or until current program funding is depleted, whichever is first.

USE OF FUNDS

Funds can be utilized for qualified capital improvement costs including land acquisition; building acquisition; construction, expansion, or renovation of building; purchase of equipment or inventory; infrastructure improvements and leasehold improvements. Operational expenses will be considered under certain circumstances. Ineligible uses for the funds include but are not limited to debt refinancing, endowment funding or interest on loans, fines, penalties and/or litigation costs.

FORGIVABLE LOAN TERMS

BEAD forgivable loans will be collateralized to the fullest extent possible, including project-based assets and in some cases other personal or corporate assets. Personal guarantees will be required of any individual who owns 20% or more of an assisted business.

PROJECT DEFAULT

In the event of project default, the remaining balance shall **not** be deemed as “forgivable” and will be due in full. Occurrences of default include, but are not limited to, the following events:

- The project ceases
- The project fails to maintain regular operating hours
- The project modifies its operation and no longer meets current eligibility requirements
- The project does not follow the approved business continuation plan
- The applicant fails to make regular monthly loan payments and a loan payment is thirty (30) days past due
- The applicant fails to submit and receive approval of annual updates as required

In the event of a default, the Department of Economic and Sustainable Development may deem the loan as not forgivable and due in full. Until full payment is made, the remaining balance will be amortized over the balance of the remaining term at a nominal interest rate of 5% with payment due on a monthly basis. All legal fees incurred for payment collection will be the responsibility of the applicant.

PROJECT REPORTING

Beginning six (6) months from the date of the loan closing, and annually thereafter, each approved project will be required to provide an annual update on the financial status of its use of the loan and on its implementation of its approved plan and/or other conditions specified by the Department of Economic and Sustainable Development. The business will provide staff with updated financial statements (income statement, balance sheet) that certify the uses of the forgivable loan and the current financial status of the project. ESD staff will review this information and may submit it for further review only to the loan review panel if it deems that the conditions under which the loan was approved are not being met. Any full review will take place at a regularly scheduled public meeting. If the project fails to provide this annual update to ESD staff within thirty (30) days of the end of each designated annual period, the loan will be deemed as being in default.
